Dear Friends,

On behalf of the people of Maine, I write this letter to raise awareness about Case Management Week, which is recognized during the week of October 13-19.

Case management is an integral component of healthcare delivery in Maine and across the United States, ensuring the delivery of quality, appropriate, efficient, and cost-effective healthcare services to patients. This critical medical management strategy fosters the careful shepherding of healthcare dollars while maintaining a primary and consistent focus on patient advocacy.

Case managers function in a variety of practice settings in order to facilitate the coordination of continuing care services. Case management services enhance quality of life while promoting the achievement of positive healthcare outcomes.

As Governor, I thank all case managers in Maine for their efforts to ensure the delivery of quality healthcare to people throughout our state.

Thank you,
